

Aaditya Verma

Web Developer • Cybersecurity Learner • Future AI Engineer

aadityanokhwal5@gmail.com | GitHub: Aaditya-verma-123 | LinkedIn: Aaditya Verma | Instagram: ___aaditya_verma___

PROFILE

Student and developer focused on modern web development, cybersecurity, and AI. Experienced in building hands-on projects with React, Next.js, TypeScript, Tailwind CSS, and API-driven applications. Currently strengthening cybersecurity foundations through the Google Cybersecurity Professional Certificate while continuing to build production-oriented software.

EDUCATION

Senior Secondary — CBSE	86.8%
Computer Science	2026
Secondary — HBSE	85.8%
	2024
IIT Madras BS Program	2026
Admission process / academic preparation	

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS
Backend	Node.js, REST APIs, Authentication, SQL, JSON
Cybersecurity	Linux, Networking, Security Risks, Threat Detection, Risk Assessment
Tools	Git, GitHub, VS Code, Figma, Vercel
AI / Automation	Python, LLM concepts, Prompt Engineering, OpenAI APIs, Automation

SELECTED PROJECTS

APEX WEB — Personal Developer Portfolio

Next.js, TypeScript, Tailwind CSS, Framer Motion

- Designed and developed a multi-page portfolio covering projects, certificates, skills, journey, blog, resume, dashboard, and contact.
- Built reusable UI components, dynamic routes, animations, theme switching, and responsive layouts.

Chat Application

React, Firebase, Tailwind CSS

- Built a real-time chat application with authentication and a modern responsive interface.
- Used Firebase services for application data and real-time functionality.

News Website

Next.js, News API, Tailwind CSS

- Developed a responsive news platform with category filtering and API integration.
- Focused on clean information architecture and responsive user experience.

CERTIFICATIONS & LEARNING

Google Cybersecurity Professional Certificate — Currently completing; learning Linux, SQL, networking, security risks, vulnerabilities, security operations, and threat detection.

Machine Learning & AI — Continuing practical learning around AI-powered applications, automation, APIs, and intelligent assistant concepts.

CURRENT FOCUS

- Building APEX WEB as a production-oriented portfolio and improving its UI, performance, and architecture.
- Strengthening cybersecurity fundamentals through structured learning and hands-on practice.
- Developing software engineering skills with React, Next.js, TypeScript, Python, APIs, and Git.

- Exploring the intersection of AI, automation, software development, and cybersecurity.
